Javalina® Breeze Pen
Item No.: 328

Industry

Municipal Police Department

Application

Educate elementary school children on proper 911 usage

Police departments use School Resource Officers to conduct visits and presentations to elementary and middle schools within their districts. The purpose of these visits is to create community goodwill while also educating the children on the appropriate usage of the 911 call program. The Javalina® Breeze pen was selected and distributed to the children in the hallways and during the school assemblies. The police department saw a measurable drop in false 911 calls.
